

REPREMAR[®]
LOGISTICS

OUR GROUP

Originally conceived in 1996 as a division of REPROMAR Shipping to develop maritime and air cargo transportation, REPROMAR Logistics became independent on May 1, 1999. It is currently one of the most recognized companies regionally in the cargo transport service between Asia and the east coast of South America. For this purpose, we continuously invest in computer equipment and software that help highlight and enhance our capabilities.

In an increasingly complex, dynamic, and demanding world, we are convinced of the importance of Information Systems

Special Services.

We ship cargo from suppliers around the globe and deliver it to construction sites anywhere in the world. We handle any type of shipment that may be part of a project, from small LCL shipments and containers to items of enormous weight and dimensions. We have experts in ship chartering, heavy cargo handling, trucking, and project management.

Special Services.

Transport of machinery and special vehicles.

Special packaging and packings.

Break Bulk cargo operations.

Transport of live animals.

YATCH TRANSPORT.

Since 2015, Repremar Logistics has managed the logistics of more than 100 yachts and sailboats with origins/destinations in Europe, Brazil, the United States, and Uruguay. With more than 10 years of experience, we consider this service as one of our pillars regarding project cargoes.

UN PEACE MISSIONS.

In 2017, 2019, and 2020, we had the opportunity to manage logistics for military vehicles for the collaboration with Paraguayan and Uruguayan armed forces/ UN missions.

HEAVY MACHINERY.

We manage the logistics of heavy machinery to deliver anywhere in the world. Together with our trained staff, we have the resources to move any type of machinery, adapting to the needs of our clients.

We have experience in transporting machinery, whether special equipment, tanks, infrastructure, etc.

PROJECTS.
